I really enjoyed this class and think you have a good idea of how it should run. However, it didn't really correlate into the learning experience simply because it was unorganized. If that had been a factor then you really would have had a great class. The idea of discussing solid themes in movies with the added factor of las temas is fantastic because it really allows me to actually practice with another student, especially someone who might have a completely different idea. Thanks for an interesting semester!

I would suggest not having tandem sessions outside of the class.

nice class, very nice professor.

One of the best professors I've had!

A very understanding and genuinely caring professor who treats all his students with respect and shows true passion for what he does

You created a very warm and welcoming environment. You always make everyone feel seen and welcome which I think is the most important in a classroom. You were very clear with expectations and always willing to help if needed.

rally good professor, i enjoyed the class.
