Mentor Reflections:

1. Greetings in Spanish (Welcoming; acknowledging students' diversity/culture)

3. Encouraged student read aloud and discussions to assist in pronunciation, fluency, comprehension.

4. Encouraged/monitored/redirected students to ensure understanding and completion of assignments.
5. Addressed derogatory behaviors in a calm, supportive manner.
6. Enjoyed the lesson...Great job!

Recommendations:

1. Students were told they COULD translate their answers into English (Google Translate). I recommend telling them that if they write their answers in Spanish, they MUST also have their answers in English, with the use of Google Translate. (Expectation: Work completed in Spanish & English OR English.)
2. Incorporate the use of technology for more student engagement. (i.e. Kahoot, Blooket, Quizziz, Nearpod, Flipgrid, WeVideo, Vocaroo)

The lesson was based on a plan that was co-designed with the ELA PLC, which included my mentor teacher and the ELA teachers. The content followed the curriculum. I did not have the flexibility to teach my own content. The lesson was the product of a collaborative effort by the members of the PLC. The lesson script is on the left and the mentor teacher's feedback is on the right.
